Re: **CTA-Retired Membership Renewal Notice** you will be receiving

Dear <first name> ,

We are well on our way to establishing our own local PGTA/CTA/NEA-Retired Association! We received confirmation from Ellen Logue, member of the CTA-Retired Board, that we have received preliminary recognition. We can expect final approval of our new Association at the CTA-Retired Board meeting in October.

The CTA-Retired membership office confirmed your membership application and \$27 fee has been received and recorded. We were then reminded the active CTA "membership year" has always been from September 1 to August 31 regardless of when during the school year an active teacher joined CTA. However, we were surprised to find out this same condition applies to retirees. Therefore your recent membership fee has been applied to the current membership year which will end this August 31, 2003 unless you mail in the "Correction Form" below.

It is important to note that if you have joined CTA/NEA-Retired now in order to qualify for a current CTA or NEA sponsored insurance or investment program, then you will definitely need to maintain your current membership as well as renew your membership for the following school year. If so, do NOT enclose the PGTA-Retired CORRECTION notice (below) to the San Francisco CTA address.

Sincerely,

PGTA-Retired Steering Committee
